Dear Bonnie:

On August 8, you phoned to request a delay in the well drilling scheduled for September 1 on the Riverview property. I was able to do this, though at some inconvenience to the driller.

On August 31, I phoned Leonard Lipinski who was surprised to learn of the change. He was still planning to be at Riverview on September 1 to specify the well locations and to observe the drilling activity.

This is to confirm that the drilling will now occur on September 16. It is my understanding that Leonard Lipinski will be here to identify the locations for the new wells. If it becomes necessary to change this date I would appreciate an earlier notice so the driller and our people who will be coming from New Jersey can make appropriate plans.

Yours very truly,

C. W. Axce
